

URI-K

United Resources International - network

Your Gateway to Global Resource Gathering

Unlocking Opportunities

- Connect with URI-K, your local partner, to access the manufacturers of industrial electronics at source.
- Explore a world of possibilities in the field of electronic manufacturing.
- Gain a competitive advantage of efficient and secure sourcing.
- Elevate your business by establishing strong, stable, and long-lasting partnerships with EU-Asian manufacturers.

Mission – Vision – Values

- **Mission:**
 - Manage and maintain trusted access from OEMs to international customers where they experience efficiency, safety, and profitability in their sourcing process.
- **Vision:**
 - To be the premier partner connecting global companies with EU-Asian manufacturers, revolutionizing the electronics supply chain.
- **Values:**
 - **Integrity:** Maintaining the highest ethical standards in all interactions and transactions.
 - **Innovation:** Driving continuous improvement and delivering cutting-edge solutions to meet the changing needs of the industry.
 - **Collaboration:** Fostering strong partnerships that empower both customers and manufacturers.
 - **Quality:** Commitment to delivering products that meet and exceed international quality standards.
 - **Sustainability:** Integrating environmentally friendly practices to contribute to a greener future.

Together, our mission, vision, and values guide URI-K in shaping the future of electronics procurement.

Globalization replaces distribution

- URI-K gives you access to a wide range of high-quality electronics, from solar panels, components to industrial PCs, LCDs or any other product.
- Immerse yourself in a vast selection of electronics designed to meet your specific manufacturing needs.
- Experience the flexibility of choice as URI-K opens doors to a wide variety of state-of-the-art products.
- Diversify your product line with direct support from our partner manufacturers.

Technological Solutions

- Discover world-class factories:
 - Solar Panels,
 - Industrial PCs,
 - LCDs,
 - Batteries
 - Assembled PCBs.
 - ...
- Explore detailed specifications and features for each product category.
- Choose from a selection of electronics manufacturers that align with your business goals.
- Access a comprehensive catalog of quality-tested products to enhance your product portfolio.
- Let's propose a product, we will provide you with manufacturer options

Quality Assurance

- URI-K offers on-demand quality controls, ensuring that quality is not just a process but a guarantee of use.
- Rest easy knowing that our partner manufacturers meet quality standards.
- Possibility of managing approvals at origin with certified laboratories
- The firm commitment to deliver products within the agreed timeframe.
- Build trust with your customers by delivering electronic components with reliability and performance within a defined timeframe.

Global Collaboration

- Connect continents effortlessly with URI-K, fostering alliances between European and American factories with EU-Asian manufacturers.
- Expand your global reach by collaborating with manufacturers deeply rooted in the EU-Asian market.
- Forge strategic alliances that transcend geographic boundaries and enhance your supplier network.
- Experience the power of cross-cultural collaboration to gain a truly global perspective of electronics manufacturing.

Efficiency at Your Core

- URI-K simplifies the process, facilitating direct access to EU-Asian manufacturers in an efficient and hassle-free manner.
- Benefit from a streamlined procurement process, reducing time-to-market for your electronics.
- Our procedures fit seamlessly with your existing processes, ensuring a smooth and efficient experience.
- Experience the convenience of a centralized hub for all your stockpiling needs.

Cost-effective solutions

- Embrace the economic advantages by opening the doors to affordable manufacturing options in EU-Asia.
- Gain a competitive advantage with cost-effective solutions without compromising product quality.
- URI-K's strategic partnerships allow you to access competitive pricing structures for maximum savings.
- Drive profitability by optimizing your production costs through our cost-effective sourcing solutions.

Innovation Center

- Stay ahead of the curve with URI-K's innovative approach, bringing state-of-the-art electronic solutions to your doorstep.
- Explore the latest advancements in electronic manufacturing through our dynamic network.
- Engage with manufacturers at the forefront of technological innovation to drive your product development.
- Elevate your brand by incorporating state-of-the-art electronics into your product line.

Optimize Your Supply Chain

- Optimize your supply chain with URI-K, ensuring a steady flow of electronics.
- Strengthen the resiliency of your supply chain with our reliable and consistent manufacturing partners.
- URI-K enables you to meet market demands in a timely manner with a well-optimized and efficient supply chain.
- Enhance your competitive advantage by ensuring a robust and responsive supply chain of electronic components.

Trusted Partnerships

- Build long-lasting relationships with EU-Asian manufacturers through URI-K's trusted and transparent collaboration.
- URI-K's commitment to transparency fosters strong and long-lasting partnerships.
- Rely on our network of manufacturers who share our dedication to delivering excellence.
- Experience the reliability of URI-K as your trusted partner in the dynamic electronics manufacturing landscape

Sustainable Solutions

- Explore environmentally conscious options while URI-K supports access to sustainable electronic manufacturing practices.
- Align your business with environmentally friendly practices and contribute to a greener future.
- URI-K prioritizes partnerships with manufacturers committed to sustainable and responsible production.
- Embrace sustainability without compromising the quality or performance of your electronic components

- Take a look at the endless possibilities that URI-K has for your business in the field of electronic manufacturing.
- Immerse yourself in a world of innovation, where URI-K opens doors to new product development opportunities.
- Explore customized solutions tailored to your unique business requirements and market demands.
- Join us to globalize your business, unlocking new horizons for your electronics offerings.

Revealing Possibilities

URI-K

Close the Deal

- Define your operating model with URI-K, your key to unlocking a world of manufacturing opportunities in EU-Asia.
- End partnerships with confidence, knowing that URI-K is your trusted guide in the EU-Asian manufacturing landscape.
- Enjoy a hassle-free sourcing process while consolidating your stockpiling position in the global electronics marketplace.
- Secure your place at the forefront of industrial innovation with URI-K as your strategic manufacturing partner.
